Introduction

Have you ever noticed how a name quite often perfectly reflects the personality of the individual named?

Advertisers certainly understand this phenomenon. It is not a coincidence that in a popular television commercial, the only person who had never tried a certain hamburger was named Herb - a somewhat geeky name in the minds of most people. Can you imagine John Wayne as Herb Wayne?

This intuitive connection we have with names and words runs very deep and is certainly persistent. When a corporation prepares to launch a new product, they put a team of copywriters, public relations experts, even psychologists, together to come up with just the right name for the product.

The Name Advisor analyzes the kind of influence a name or a number, or a combination of both, has on the human psyche. By doing so, it will help you choose the right name for a child, an adult (name change), a product, a pet, a street address, a business name, a telephone number, a car license plate, and so forth.

The Name Advisor uses 3 to 4 topics.

The Dominant Impression explains the initial and most strongly felt influence of a name.

The Vowel Vibration focuses on the vowel sounds.

The Base Vibration, which could be considered an underlying tone or rhythm, can apply to names as well as numbers - such as telephone numbers or social security numbers.

The Overview section tells you about the relationship between the different vibrations.

Although two names can easily have a similar - even identical - Dominant Impression, the chance of two names also having the same Vowel and Base vibrations is much smaller. Certainly the most important aspect to consider, is how the first three main influences fit together. The Overview, therefore, is as important, if not more important, as the other sections when considering a name. However, don't focus only on getting the highest rating of stars. Use your own analytical powers. Think about the two or three different vibrations. Do they feel suitable for the name and the person or thing you are naming? If you are starting your own accounting firm, you should look for a name that reflects dependability, trustworthiness, stability, even if that name is also described as boring and rigid. On the other hand, if you are looking for a name for a store selling camping gear and scuba diving lessons, you want a name that conveys a dynamic, risk-taking, freedom-loving nature.

When you look at the results of names you entered - and the program subsequently

examined - you need to keep a few things in mind:

Who, or what, is the name for?

There is no such thing as a perfect name. Each and every name, number, or combination of both, will have some negative as well as some positive attributes.

Make the name "it" the person or thing. Don't look specifically for "money and power" or "fame and fortune." Keep in mind that when it comes to quality of life, happiness is the bottom line.
